## EXECUTIVE AND PERSONAL SECURITY SERVICES

This cell was particularly founded to cater to the demand of personal security services, which, given the socio-political situation of our country, is essential and rapidly growing. Executive protection specialist (EPS) and personal protection specialist (PPS), are a special class of security personnel with specific qualities and responsibilities. While being highly skilled in all aspects of personal security, they are also trained to be an integral part of the client's life, which helps them work as de facto personal assistants with utmost dedication.
